ABSTRACT

As part of the effort of the Illinois Community College Board to develop and implement statewide and regional planning of occupational programs, input from community college administrators, presidents, and trustees was sought in order that policies, procedures and guidelines for statewide and regional planning could be formulated. Additionally, occupational programs currently offered and those intended for future implementation were classified as to whether they should be made available on district-wide, area-wide, regional, statewide, or cooperative bases. The resulting occupational program classification scheme was then presented to community college personnel at seven regional meetings throughout the state. The bulk of this document contains the instructional program classifications for each of the seven regions of the state. Within the regional program classifications are the instructional program classifications for each college in the region. Procedures for resolving disagreements on program classification and duplication between institutions at the local level are outlined, and the rcle of the State Board in assisting the resolution of differences is also presented. STATEWIDE INVENTORY OF OCCUPATIONAL PROGRAMS FOR ILLINOIS PUBLIC COMMUNITY COLLEGES	
APPROVED COOPERATIVE PROGRAMS AT ILLINOIS PUBLIC COMMUNITY COLLEGES AS REPORTED TO THE ICCB	
NIMMARY	

INTRODUCTION

For the past year, the staff of the Illinois Community College Board has been working to develop and implement statewide and regional planning of instructional programs. After seeking input from Illinois public community college administrators, presidents, and trustees, the ICCB staff submitted to its Board a policy and related procedures and guidelines for statewide and regional planning which were subsequently approved at the May 21, 1976 ICCB meeting. The objective of the statewide and regional planning concept was to strengthen communication and cooperation among local institutions. It was also an attempt to place greater programmatic decision-making at the local level. However, the statewide and regional planning activities were designed to be supportive to the previously approved cooperative arrangements which existed between institutions.

In the Fall of 1977 the Illinois public community colleges submitted to the ICCB all intended programs to be implemented as a part of their RAMP/CC document. These intended programs were identified along with previously approved units of instruction and subsequently shared with community college administrators at seven statewide and regional planning meetings. The meetings were held during October of 1976 at seven community college campuses. All Illinois public community college districts were grouped for initial planning and discussion purposes according to ICCTA regions. At these meetings ICCB staff also shared with the local administrators the intended programs and intended program classifications for every community college in the State. Other activities at these meetings

included: stressing the concept of programmatic planning at the local level; reviewing the policy, procedures, and guidelines for statewide and regional planning; encouraging the colleges to meet regionally on programmatic planning and other issues; identifying the process for responding to intended programs; distributing program request forms for all schools in that region and neighboring regions; requesting responses from every institution about intended programs which might have an effect upon its institutions; and recognizing the process for program classification of currently approved programs and intended programs as district, area, regional, and statewide offerings. was set aside at the meetings for the institutions to express their position on the programmatic intent and classifications of regional offerings and others in the State as applicable. Any issues or disagreements between colleges were identified and discussed, and those which could not be resolved are to be discussed at subsequent meetings at the deans and presidents levels until the issues regarding the proposed programs are resolved. If the institutions still do not reach agreement regarding the approval of the program, then ICCB staff will attempt to assist in the resolution of the differences. A timetable which is included as a portion of the summary section was discussed at the meetings.

The program approval status of proposed programs to be implemented Fall 1977 is intended to be reviewed at the Illinois Council of Community College Administrators Conference to be held November 18 and 19, 1976. It is expected at this meeting that a report will be made identifying those community colleges which have responded in support of or with reservations on intended programs, their classifications, and the classifications of

currently approved programs. At that time, the staff will identify any statewide concerns or implications.

This year's edition of the "Statewide Inventory of Current and Intended Career Programs at Illinois Public Community Colleges" includes, for the first time, the designation of programs classified as District, Area, Regional, or Statewide programs. It should be pointed out that these designated program classifications included in this document are only the recommendation of the colleges themselves and have not been approved yet by either the Illinois Community College Board or its staff. The Illinois Community College Board staff plans to make its recommendations on the designated program classifications in the Spring of 1977 for review by the colleges and then submitted to the Illinois Community College Board for approval.

The attached charts also identify cooperative programs reported to the Illinois Community College Board office. It is hoped that other colleges who currently have cooperative programs but have not reported them to the Illinois Community College Board office will do so before the final report is issued next Spring.

It is our hope that this process will stimulate the local community colleges to recognize and consider the intent of neighboring institutions in the State so that better pluming and cooperation may exist throughout the State of Illinois. Since the statewide and regional meetings were held, a number of meetings have been held locally and institutions have added or deleted programs as a result of these meetings. It is reasonable to assume that not all conflicts will be resolved at the local level and that state participation may be necessary. Some other considerations which were unresolved at the time of the regional meetings, such as how to respond to

and approve the statewide program classification, will be discussed at the Illinois Council of Community College Administrators Conference. It is the feeling of the ICCB staff that the most desirable attribute of this planning system would be the acceptance of local institutions to work together as full partners with State officials to serve the needs of the citizens of the State of Illinois.

* <u>Key</u>:

- C = Programs approved in cooperation with another community college district.
- D = Currently approved program classified as district.
- A = Currently approved program classified as area.
- R = Currently approved program classified as regional.
- S = Currently approved program classified as statewide.
- x = Currently approved program but not classified.
- W = Program withdrawn during past year.
- 78A = Intended program to be implemented in year indicated and classified District, Area, Regional, or Statewide.
- (81) = Year college intends to withdraw program.
- * These designations have been proposed by officials from Illinois public community colleges and are not necessarily approved of the Illinois Community College Board or its staff.

STATEWIDE AND REGIONAL PLANNING MEETING #4

PARKLAND COLLEGE October 15, 1976 10:00 a.m.

East Central Region

45

The following lists the individuals who participated in the fourth statewide and regional planning meeting held at Parkland College.

College/State Agency	Representative
Danville Junior College	Alan Johnson
Lake Land College	Charles W. Cole
Lincoln Land Community College	Orell R. Vanderwater
Parkland College	Clifton Matz
Richland Community College	Loren Pixley Robert Rose
Division of Adult and Vocational- Technical Education	Louise Dailey
Advisory Council on Vocational Education	Don Mitchell
CETA Coordinator	Toni Harris
Illinois Community College Board	Janet Stroud

Illinois Community College Board STATEWIDE AND REGIONAL PLANNING MEETING #4

CHARTS OF CURRENT AND INTENDED OCCUPATIONAL PROGRAMS

Danville Junior College
Lake Land College
Lincoln Land Community College
Parkland College
Richland Community College

* Key:

- C = Programs approved in cooperation with another community college district.
- D = Currently approved program classified as district.
- A = Currently approved program classified as area.
- R = Currently approved program classified as regional.
- S = Currently approved program classified as statewide.
- W = Program withdrawn during past year.
- x = Currently approved program but not classified.
- 78A = Intended program to be implemented in year indicated and classified District, Area, Regional, or Statewide.
- (81) = Year college intends to withdraw program.
- * These designations have been proposed by officials from Illinois public community colleges and are not necessarily approved by the Illinois Community College Board or its staff.

STATEWIDE AND REGIONAL PLANNING MEETING #5

SAUK VALLEY COLLEGE October 19, 1976 10:00 a.m.

Northwest Region

The following lists the individuals who participated in the fifth statewide and regional planning meeting held at Sauk Valley College.

N. F. and	
College/State Agency	Representative
Highland Community College	David Emerson Betty Shockley
Kishwaukee College	Donald P. Higgs
Rock Valley College	Don Johnson
Sauk Valley College	Jim Barber Robert Crouse Dick Holtam Jim Strickland Ron Williams
Division of Adult and Vocational- Technical Education	Mary Lou Shea
CETA Coordinator	Toni Harris
Illinois Community College Board	Janet Stroud

Illinois Community College Board STATEWIDE AND REGIONAL PLANNING MEETING #5

CHARTS OF CURRENT AND INTENDED OCCUPATIONAL PROGRAMS

Highland Community College
Illinois Valley Community College
Kishwaukee College
Rock Valley College
Sauk Valley College

* Key:

- C = Programs approved in cooperation with another community college district.
- D = Currently approved program classified as district.
- A = Currently approved program classified as area.
- R = Currently approved program classified as regional.
- S = Currently approved program classified as statewide.
- W = Program withdrawn during past year.
- x = Currently approved program but not classified.
- 78A = Intended program to be implemented in year indicated and classified District, Area, Regional, or Statewide.
- (81) = Year college intends to withdraw program.
- * These designations have been proposed by officials from Illinois public community colleges and are not necessarily approved by the Illinois Community College Board or its staff.

STATEWIDE AND REGIONAL PLANNING MEETING #7

JOLIET JUNIOR COLLEGE October 22, 1976 10:30 a.m.

South Suburban Region

The following lists the individuals who participated in the seventh statewide and regional planning meeting held at Joliet Junior College.

College/State	Agency
---------------	--------

Joliet Junior College

Kankakee Community College

Moraine Valley Community College

Prairie State College

Thornton Community College

Division of Adult and Vocational-Technical Education

CETA Coordinator

Illinois Community College Board

Representative

Maynard Boudreau William Chase Claude Kern Max Kuster Charles Warthen Walt Zaida

Richard Frey Writesman Long

Byron Kee Robert M. Van Raes

N. A. Petersanti

Bill Piland

Gene Beenenga Donald J. Imig Nona Janssen

Toni Harris

75 Janet L. Stroud

Illinois Community College Board STATEWIDE AND REGIONAL PLANNING MEETING #7

CHARTS OF CURRENT AND INTENDED OCCUPATIONAL PROGRAMS

Joliet Junior College Kankakee Community College Moraine Valley Community College Prairie State College Thornton Community College

* Key:

- C = Programs approved in cooperation with another community college district.
- D = Currently approved program classified as district.
- A = Currently approved program classified as area.
- R = Currently approved program classified as regional.
- S = Currently approved program classified as statewide.
- W = Program withdrawn during past year.
- x = Currently approved program but not classified.
- 78A = Intended program to be implemented in year indicated and classified District, Area, Regional, or Statewide.
- (81) = Year college intends to withdraw program.
- * These designations have been proposed by officials from Illinois public community colleges and are not necessarily approved by the Illinois Community College Board or its staff.

Illinois Community College Board

STATEWIDE INVENTORY OF OCCUPA AL PROGRAMS
FOR ILLINOIS PUBLIC COMPU. OLLEGES

November 1976

* Key:

- C = Programs approved in cooperation with another district.
- D = Currently approved program classified as district.
- A = Currently approved program classified as area.
- R = Currently approved program classified as regional.
- S = Currently approved program classified as statewide.
- x = Currently approved program but not classified.
- W = Program withdrawn during past year.
- 78A = Intended program to be implemented in year indicated and classified District, Area, Regional, or Statewide.
- (81) = Year college intends to withdraw program.
- * These designations have been proposed by officials from Illinois public community colleges and are not necessarily approved by the Illinois Community College Board or its staff.

ERIC

APPROVED COOPERATIVE PROGRAMS AT ILLINOIS PUBLIC COMMUNITY COLLEGES REPORTED TO THE ILLINOIS COMMUNITY COLLEGE BOARD

The following section contains those approved cooperative programs at Illinois public community colleges which are a part of the official Illinois public community college curriculum file in the Illinois Community College Board offices. This list of cooperative agreements is not at all inclusive since the Illinois Public Community College Act allows local community college districts to engage in contractual agreements to provide for instructional services. Since the control of such arrangements is at the local level, the Illinois Community College Board or its staff is not always aware of agreements. Only those institutions which have completed an ICCB Form 20A and identified the cooperative agreement as inter-district agreement with other community colleges of a given institution, agreement with senior public institution, agreement with private institution, agreement with proprietary institution, or interstate agreements are listed. The reviewer of this list should realize that although other cooperative agreements have been included in other ICCB studies, this list only includes those which have been reported to the Illinois Community College Board.

Illinois Community College Board

COOPERATIVE PROGRAMS AT ILLINOIS PUBLIC COMMUNITY COLLEGES (Officially listed on ICCB records as of 11/1/76)

SUMMARY

As a result of the seven Illinois Community College Board statewide and regional planning meetings held throughout the State of Illinois for programmatic planning in Illinois public community colleges for Fall 1977, the following activities are anticipated to occur in the future.

- 1. Charts of current and intended programs with program classifications will be prepared by ICCB staff members and presented at the Illinois Council of Community College Administrators Conference held in November of 1976.
- 2. Community college deans and administrators will hold regional meetings to discuss current and intended programs and their classifications as district, area, regional, or statewide programs. If necessary, deans and presidents will hold as many meetings as necessary to resolve problems with the proposed programs and program classifications. At this time, the ICCB staff is aware of at least four meetings of the administrators which have been held since the statewide meetings to discuss regional programmatic planning. One region already meets monthly to discuss intended programs and cooperative agreements which might be reached to serve the students throughout the entire region.
- 3. Most Illinois public community colleges have submitted responses to the Illinois Community College Board staff relating to intended program requests of other institutions from their region. A summary of responses has been compiled and will be shared at the Illinois Council of Community College Administrators Conference in November so the deans may be aware of the status of their intended programs. Many college officials have also

submitted initial responses to proposed program classifications of other institutions in their region to the LCCB office.

- 4. The ICCB will encourage program requests where there is concurrence among the regions and neighboring colleges. The ICCB staff will direct the requesting institution to submit an ICCB Form 20 for the ICCB staff to const. for a recommendation to the Illinois Community College Board.
- 5. A list will be compiled and will be reported to the administrators at the Illinois Council of Community College Administrators Conference held in November for those programs in which there are unresolvable differences.
- 6. Where agreement cannot be reached and/or additional information is required, later meetings or input of the deans and the presidents will be requested to pinpoint or attempt to resolve any differences of opinion with these program requests or their categorization. If these matters are resolved at the local level, those programs previously in question will usually be provided with encouragement. For those programs where there has been no resolution, additional information may be required, meetings may be scheduled, and if necessary, a decision may have to be made by the ICCB staff based upon the criteria previously adopted by the Illinois Community College Board.
- 7. For programs to be implemented in the Fall of 1977, all TCCB Form 20's must be received in ICCB offices no later than February 1, 1977, so that the ICCB staff and other related state agencies can review them prior to submission to the Illinois Community College Board with staff recommendations.

8. Initial recommendations will be made by the March 1977 meeting of the Illinois Community College Board and tinal recommendations would be taken to the Board at its April 1977 meeting. Should the Board discourage tuture development of these programs for FY78 or should the Board deny approval of such a program, the community colleges involved would still have the opportunity to send in this information as part of the planning process for subsequent years of statewide and regional planning.

It is hoped that the Illinois Community College Board staff can take a monitoring role in these procedures and the resolution of the problems will come at the local level. It is intended that state officials would make recommendations in light of local agreements unless such agreements cannot be met. It is also loped that this process will help keep community colleges informed of the activities at other institutions and allow local officials to utilize this information in their future planning activities.
